

CSIR BIOCATALYSIS ROADSHOW

SPEAKER

DR. LUCIA STEENKAMP

Chief Researcher & Research Group Leader:

Biocatalysis, Future Production Chemicals, CSIR

PhD: Biochemistry, Rand Afrikaans University

Dr. Steenkamp is a specialist with a track record in research and development that has led to an international profile and recognition as a leader in the fields of biochemistry and biocatalysis.

She is also a Director: Industrial Biocatalysis Hub (IBH), which is co-funded by the Department of Science and Innovation and Technology Innovation Agency. The IBH offers research and development opportunities, scale-up facilities, funding, collaborations, skills development and training for young people within biomanufacturing.

“I have always been very passionate about research leading to commercial applications, which can be transferred to industry partners. The fact that the work we do is completely green without negative impact on the environment is also a very big motivation for me to work on additional projects.” – Dr Lucia Steenkamp
